EXPERIENCE

Sleepplay — *Shopify developer*

2022 - PRESENT

Coding and maintaining the storefront of sleepplay.com. Converting figma designs into pixel-perfect and responsive sections, landing pages and features for the website.

Mott & Bow — *Front End - Teach Lead*

2022 - 2023

As a tech lead, my role was about creating new features and improving load speeds and SEO. Reviewing code from Junior devs and helping them improve their code and technical skills. Leading the team to deliver new landing pages and sections for the main website.

Freelance and Agency work — *Shopify Developer*

2020 - 2022

Creating and coding features for Shopify and Shopify Plus stores, I've worked for 20+ clients and built several features such as: sections, landing pages, app integrations, Ajax Cart, Collection pages, Search, and Checkout page customization, also improved the SEO and load speed.

Municipality of San Nicolas — *Fullstack developer*

2018 - 2019

VueJS, PHP and MySQL. We created solutions for municipal procedures. Improved metrics, making them more efficient. We rejuvenated old systems using new technologies and applying design thinking.

EDUCATION

E.E.S.T.N2, Buenos Aires — *Computer Science*
